

**GRACE COMMUNITY CHURCH - RESUMPTION OF PUBLIC GATHERING**  
**ASSUMPTION OF RISK**

On June 14, 2020, Grace Community Church will resume publicly gatherings for the first time since our voluntary suspension of meetings due to safety concerns related to the Coronavirus, also referred to as COVID-19.

This confirms that decisions related to public gatherings are in consideration of many factors, including varied recommendations/suggestions from various federal, state, and local officials. None of the information we have considered, including information from public officials or sources, or the scientific modeling and data, has proven to be certain or is guaranteed to be accurate.

Therefore, people who participate in gatherings resuming at Grace, for themselves and/or their children, do so at their own risk.

Grace cannot guarantee the safety or security of any persons from infection. The resumption of public activities, including attending gatherings at Grace, may result in exposure to or contracting the virus.

People must determine for themselves and their families whether and how they should participate in public gatherings. Please take into account personal health history and risk factors, and follow the advice of treating physicians.

We also encourage people to consider and follow publicly available information which they may find helpful.

We look forward to serving you.
